Professional Profile

Passionate and detail-oriented frontend developer with over 2 years of experience building modern, user-centered web interfaces. Currently working at Fair Finans Teknoloji, contributing to the Fair Finansman Plus platform using Vue.js (Composition API). Self-taught and highly motivated, I am also learning backend development with Node.js and Sharp to expand my fullstack capabilities. I'm looking for a new challenge in Paris, within an innovative and dynamic company where I can grow and contribute with impact.
